

Junior Computer Fun Badge Workshop

Participants should complete activity No. 1 of the Computer Fun badge prior to attending the program. Girls will design a newsletter, take apart a computer to see how it works and learn about engineering design as they construct an efficient and effective virtual bridge. They will interact with Society of Women Engineers (SWE) students and professionals to learn about engineering and computer careers. Girls will earn the Computer Fun badge and receive a SWE patch. The badge is not included. A Snack is provided.
